2023/24 Bering Sea Tanner Crab Season Opens October 15 Total Allowable Catch Announced

The Alaska Department of Fish and Game (ADF&G) and National Marine Fisheries Service (NMFS) have completed analysis of 2023 NMFS trawl survey results for the Bering Sea District Tanner crab stock. The 2023 estimates of mature male Tanner crab biomass are above the threshold required to open fisheries in eastern and western areas of the Bering Sea District. The 2023/24 Western Bering Sea Tanner crab fishery (WBT), west of 166° W long, and the 2023/24 Eastern Bering Sea Tanner crab fishery (EBT), between 166° W long and 163° W long, will open 12:00 noon October 15, 2023, and close 11:59 pm March 31, 2024.

The 2023/24 total allowable catch (TAC) for Bering Sea District Tanner crab Individual Fishing Quota (IFQ) and Community Development Quota (CDQ) are allocated as follows:

	West of 166° W long (WBT)	East of 166° W long (EBT)
Individual Fishing Quota (IFQ)	1,188,000 pounds	684,000 pounds
Community Development Quota (CDQ)	132,000 pounds	76,000 pounds
Total	1,320,000 pounds	760,000 pounds

To protect the Pribilof blue king crab stock, waters enclosed by connecting the following coordinates: 58° N, 171° W; 58° N, 168° W; 57° N, 168° W; 56° 30' N, 169° W; 56° 30' N, 170° W; 57° N, 171° W; 58° N, 171° W are closed to the operation of commercial king and Tanner crab pot gear and commercial groundfish pot gear for Pacific cod taken as bait during commercial IFQ/CDQ crab fisheries. The associated closed ADF&G statistical areas are: 685730, 695730, 705730, 705701, 705703, 695701, 695700, 685700, 695631, 695632, the northeast half of 705630, and the northwest half of 685630. A map of the closed area will be provided at the time of registration.

A valid United States Coast Guard (USCG) Commercial Fisheries Vessel Safety Decal is required before a vessel registration may be issued. Vessels must also have an activated vessel monitoring system approved by NMFS. The operator of a vessel participating in IFQ or CDQ crab fisheries must notify the USCG at least 24 hours prior to departing port when carrying crab pot gear. USCG can be contacted at: (907) 581-3466 or (907) 359-1575 (after hours).

Bering Sea–Aleutian Islands crab fishery registrations will be completed through the Dutch Harbor ADF&G office. An individual holding a current Commercial Fisheries Entry Commission (CFEC) Bering Sea Tanner crab interim use permit card (T91Q or T09Q) must be present during registration. Fishermen may participate concurrently in IFQ and CDQ fisheries, but a separate CFEC permit card is required for each fishery.

For the 2023/24 crab season, ADF&G has modified the vessel selection plan for the Eastern and Western Tanner crab fisheries. To ensure observer coverage goals are met, all vessels pre-season registered for these fisheries are considered selected for observer coverage, however, not all vessels will be required to carry an observer based on observer availability and coverage needs. Fishermen must contact Saltwater, Inc. for observer coverage a minimum of 10 days prior to fishing activity. Saltwater, Inc. must also be notified if a vessel was pre-season registered but does not intend to participate in these fisheries. Saltwater Inc. may be contacted at (907) 539-2548.

At the time of vessel registration, all pots onboard the vessel and in wet storage must comply with current Bering Sea Tanner crab fishing regulations. There is no crab pot limit or buoy tag requirement for the Bering Sea Tanner crab fishery. Fishermen may register up to 20 groundfish pots. Fishermen are reminded to report all Pacific cod retained for bait on fish tickets at time of landing.

Fishermen must notify ADF&G within 72 hours of completing fishing operations in the registration area or when departing the registration area with gear in long-term storage or transferred to another vessel. Unbaited gear with doors secured open may be stored for up to 14 days outside of designated storage areas after fishing is completed. Pots must be removed from the water or placed in long-term storage if left unattended in a registration area for more than 14 days. Vessel registration will be invalidated after 14 days of inactivity in a registration area.

For questions regarding federal Crab Rationalization Program regulations, contact NOAA Fisheries Sustainable Fisheries Division at (907) 586-7228 or the NOAA Office of Law Enforcement in Kodiak at (907) 486-3298 or Dutch Harbor at (907) 581-2061.

For further information contact ADF&G Dutch Harbor at (907) 581-1239, or ADF&G Kodiak at (907) 486-1840.
